

Dear Valued Customer,

As part of our commitment to provide you with the very best entertainment and communications experience, we continue to invest in our next-generation, high-speed fiber-optic network to bring you even more HD and On Demand entertainment choices both on TV and online.

Periodically, we must adjust prices due to increases in programming and other business costs. Effective May 1, 2010, or with your first billing statement thereafter, we are making some adjustments to our prices and your bill may change - with some rates increasing and others being reduced.

These rates apply to select video, internet and phone services as indicated on the enclosed schedule. If your services are currently part of a promotion, no changes will occur to these qualifying services until the end of the promotional period. No action is required to continue receiving all of the valuable benefits your current service includes. You can also take advantage of our new Triple Play packages to realize even greater value and product benefits.

We welcome the opportunity to help find the perfect package at a price that meets your budget. Visit us at Comcast.com or call us at 1-800-COMCAST to learn more.

We thank you for your continued business and look forward to providing you with a superior entertainment and communications experience.
